Abrons Art Center Studio G05

MELT: Choreography For Warming-up to Dance

Participants will learn a selection of choreographic materials created by Irene during her ongoing interactions with professional dancers and dance teachers. These choreographies can be used as a very efficient warm-up for dance, as well as a musculo-skeletal conditioning program, neuro- muscular fine-tuning, and mental preparation for the greater awareness and expansiveness required of us all as creative performing artists. Areas of focus might include: dynamic trunk/pelvis stabilization, foot sensitization and articulation, hip joint mobilization, freeing of hands/arms, and enhancement of breathing.
