#### MORNING CLASS WITH JOANNA KOTZE

MON/FRI 10am-12pm

Movement Research, 122 Community Center

150 1st Ave, Ninth Street Studio

\* TUES, Sept. 24th-- Danspace Project, 131 E 10th St.

Both laboratory and technique class, we will delve into the body's architecture and its unique potential, gaining more information, trust, and range. Through technical studies, set movement phrases, and improvisational practices, we will discover and challenge habits and preconceived notions, while practicing our relationship to time, space, and each other. Concentrating on the forces through the legs into the floor will lead us to finding more range, opposition, and weight in the body.
