Morning Class with Kayvon Pourazar

[December 7 - December 14](#)

10:00 am - 12:00 pm at Eden's Expressway

This class will work towards allowing the innate wisdom, order and imagination of the moving body to become more present in our dancing. Our warm up will help us become more familiar with our range of effective force, momentum, coordination, weight and balance. We will encourage an interplay of various systems, perceptions and forms of consciousness in a vast interdependent network that emphasizes kinetic dexterity within multi-layered forms and more importantly to simply feel more.

Movement Research
537 Broadway 4th Fl
New York, NY, 10012
