ABT's National Training Curriculum is a program for the development and training of young students that embraces sound ballet principles and incorporates elements of the French, Italian and Russian schools of training. The National Training Curriculum aims to assist beginning through advanced teachers in training dance students to use their bodies correctly, focusing on kinetics and coordination, as well as anatomy and proper body alignment. Artistically, the National Training Curriculum strives to provide dance students with a rich knowledge of classical ballet technique and the ability to adapt to all styles and techniques of dance.
