A NOTE FROM DOUG

The 2019 Summer Workshop marks our 20th year of teaching and sharing our work and process. I've always seen this intensive as a way of channeling the philosophy of the dances we create into a shared experience. For three weeks, we'll live together, work together, create together, and grow together. The Company builds a safe haven that allows you to challenge yourself in both mind and body and explore the individual qualities that we each possess as artists. I am confident that the personal teaching approach of the Company will leave you with new ideas, new answers and new questions about why we all do what we do: DANCE.
