For Amanda Selwyn Dance Theatre 's 15th Anniversary Season, she will present Renewal, an evening-length work that unpacks the state of being made new, fresh, or strong again – dramatizing how we re-invent ourselves again and again over time. Renewal will be composed of a series of shorts that shift the physical and visceral present movement, re-starting, reclaiming, and revitalizing our experience of it. Each short will highlight signature structures and elements in Selwyn's style including gesture, partnering, virtuosic artistry juxtaposed with pedestrian movement, humor, character, and theatricality. With Selwyn's fresh and vibrant movement language of extended limbs, physical risk, athleticism, energy, release, touch, and balance, she will activate emotional expression and offer many in-roads for audiences to make meaning for themselves.
