MESSAROUND /mehs-ah-round/ n.

1. a creative social experiment; an open, radical event where we make a mess of what we think we know about others; a place to mingle, move, listen, and experience a collision of ideas.

cullen+them is an intergenerational performing arts group making socially conscious work. Spring Messaround will be the first in series of seasonal events, showcasing work in progress from the company and featuring live salsa music, in a social setting where you will have the opportunity to engage with the work and meet new people.
