Green Space

In this facilitated group, we find ways of supporting the unique needs of each member, while also learning to more effectively relate to others. We learn to be seen for who we really are, and see others as they are. We find healing where we may have felt pain or disconnection from the self. We find insight, awareness and courage to break and move past old patterns that no longer serve us. The group sessions utilize Core Energetics, an approach that engages group members through body, dialogue and awareness. Group sessions include shared movement and expressive work, and opportunities for members to process individual issues and struggles they would like guided support in working through. This group provides a safe and therapeutic environment, where you can express your feelings, take risks, connect to others and further your emotional growth process.
