Through Dorfman Technique and repertory discover the power of the unique individual connected to the ensemble/community. Carolyn created her classes, "the art of specificity", to reveal the essence of her work. Center driven movement, breath phrasing, musicality and the integration of body, mind and spirit to feed and create the dance artist.

Each week, classes will feature elements of a work from Dorfman's bold, athletic and challenging repertory. Come TOGETHER with Carolyn Dorfman Dance and connect!
