Calling All Stakeholders in Dance! Dance/NYC and the Dance/USA Taskforce on Dancer Health invite you to join us in responding to the Taskforce's recent call to action to achieve the dancer aesthetic in a manner that promotes overall good health and protects the artist and performer. Led by Richard Gibbs, M.D., it provides a forum to discuss case stories from the perspective of the health professional, cultural critic and professional dancer, including New York City Ballet Principal Dancers Jenifer Ringer and Jared Angle. What words work to promote dancer wellness? What positive practices? What can we as a field do for our dancers? Admission is free, but please RSVP through the tickets link above. More information can be found on our homepage or directly at: <http://dancenyc.org/news-room/news-and-announcements.php?id=207>

Dance/NYC
466 Grand Street (corner of Pitt Street)
