Nomi H. Rave

Valerie Green/Dance Entropy (VG/DE) presents the World Premiere of Utopia from December 13-15, 2018 at 8pm at Danspace Project, 131 E. 10th Street (inside St. Mark's Church), NYC 10003. Advance tickets are \$22 for the general public and \$15 for Danspace Project members and can be purchased at <http://www.danspaceproject.org/calendar/valerie-green-dance-entropy/> or by calling (866) 811-4111. Pending availability, tickets can be purchased at the door for \$25 (cash or check only). For more information, visit www.danceentropy.org.

Choreographed by Valerie Green and in collaboration with visual artist Keren Anavy with original music by Mark Katsaounis, VG/DE's newest evening length work, Utopia, explores the idea of a perfect place through dance and visual art. The work questions whether Utopia might be an internal place, investigated through personal and intimate moments and alongside the community.
