We are excited to announce the second event of our WE ARE NATURE series!

Join us on the rooftops for a solstice gathering where sound, movement, and light converge in celebration of art, nature, and collective presence. This special event will feature a live dance performance by Mizuho Kappa, the debut of our 2025 Residency Award installation and the release of MaYita's new concert experience and album: SOMOS.

- MIZUHO KAPPA will present a live dance performance centered around the embodiment of electrons as they move through the universe.

"The embodiment of electrons as they move through the universe.

Entropy—a measure of uncertainty or "mixedness" in a quantum system—reveals how information is distributed and how order decays over time.

It plays a crucial role in understanding quantum entanglement,

a phenomenon where two or more particles become correlated in such a way that the state of one instantly reveals information about the other, regardless of distance.

We meet.

We separate.

We mix."

- Art Installation Unveiling

The 2025 NOOSPHERE Arts Residency Award at Kingsland Wildflowers Winner

Artist: Jeannie Rhyu

Project: Entanglement

Entanglement is a sculptural installation of eight ceramic eggs reimagined as subatomic particles in a chaotic cosmos, inspired by the quantum forces that guide migratory birds on their journeys. The eggs are painted with imagery interpreting the lifecycle and migration histories of four bird species from Newtown Creek—part-time residents of New York, whose cross-generational round trips transport genetic memory and stored energy across borders.

- SOMOS is a sacred musical offering to honor the peak of the sun's light, the MaYita Summer Solstice Medicine Music Concert is a heart-opening ceremony where ancestral rhythms, healing music, and sacred chants guide the community into deep remembrance and joyful celebration. Aligned with the energy of the solstice, MaYita channels prayers of light, unity, and transformation through her voice and presence, creating a portal for collective healing, connection, and renewal. This is more than a concert - it is a living ceremony of music, spirit, and soul.
