Site-specific dance performance by Princess Lockerooo. WE ARE NA

We are excited to announce our 2025 Season kicking off our outdoor season with an evening of music dance and performance!

According to quantum theory stillness doesn't exist. A particle can never be at complete rest. And vacuum is by no means empty space but contains fleeting particles that continuously pop in and out of existence. Our 2025 outdoor season programming will offer a reflection on the fast indiscernible dynamics that underpin the microscopic world that makes up every component of nature. This year's theme WE ARE NATURE: The Microcosmic Dance is part of the global celebrations of the UN's International Year of Science and Technology marking the centenary of quantum physics. Through art music dance and other performances our featured talent will interpret some of the scientific philosophical and human aspects related to the quantum nature of the world. Uncertainty entanglement and delocalization are keywords of quantum jargon but also qualities of our lives. The season will explore creative intersections of quantum and human nature in a unique blend of art and science allowing the public to reflect on the beauty and mystery of our universe and harnessing the contemplation of microscopic frenzy to deliver inner peace.

May 25th Season Opening event will include:

A dance performance by our Choreographer in Residency: Petra Zanki

A Live Set by Lulada Club: NYC's all women salsa band!

Doors: 6:15PM

Show: 6:45PM

Sunset: 8:15PM
