Ms. Giordano's method, based on principles of modern dance and ballet she considers valuable, develops in her dancers a powerful center, granting them the freedom to explore the full potential of their physical and artistic expression. It is a unique approach to movement, incorporating spirals, circular movements, crisp lines, shifts of weight, slow motion, a distinctive dynamic and the capacity to veer from total control to total abandon.

We offer classes that build you from the core/foundation and allows you to give yourself entirely to e-motion (energy in motion). We guide each dancer with comprehensive tools. Our method is respectful of a healthy alignment of the back and articulations, and guides students who want to become dancers and artists seeking a long career. Our process develops from the inside out with power and beauty. We create quality.
