Mersiha Mesihovic/CircuitDebris is a NYC based dance company and a platform for collaboration and community engagement. We are especially interested in providing dance/movement artist a space to further their research through providing professional dancers a master class. On Sat 2/14 MM/CD artistic director Mesihovic will teach a master dance class inspired by her most recent research Embodiment. Dancers and performers interested in pushing physicality are encouraged to attend. To secure a spot and further info: email MM/CD company manager Brian C.Jones at circuitdebris@gmail.com Circuitdebris.org
