Terrence Hamilton

esensoria takes the audience on a journey to discover the essence of flamenco through the five senses: taste, touch, sight, scent, and sound. The performance is the result of research about the individual use of these five senses, as well as how they connect with each other. Through a multimedia approach, the audience will realize how each sense can be used to understand and sense/feel the art form of flamenco. The resulting performance is a truly multisensorial spectacle.

Al Margen Flamenco
64 East 4th St.
New York, NY, 10003
