Programmatic Modeling for Artistic and Financial Strength

Workshop Date: March 30, 2011

Workshop Location: New York, NY

Registration Deadline: March 21, 2011

Register NOW for a free workshop hosted by the Non-Profit Finance Fund.

This half-day workshop is designed for Executive Directors and other senior staff, and will engage participants in a discussion about how to incorporate financial goals into planning for a vibrant and viable future. Using real-life case studies, NFF will offer interactive exercises to help participants develop financial plans that consider current financial dynamics, underlying business models, and the full cost of providing healthy, artistic programming.

Specific topics to be covered are:

- Practical program profitability modeling and scenario planning: how to develop smart, strategic multi-year budget responses;
- Learning how the choices you make impact your organization's financial health and viability over the long term.

This opportunity is available to Dance/USA members. Space is limited, so pre-registration is required. To register now, click [here](#). Additional workshops in 2011 will be held in San Francisco, CA in May and Chicago, IL in September.
