Adriano R. Hultmann

hi,

Im a professional photographer (master in photography- School of Visual Arts) always looking to create new content and colab. Im looking for models for a raw and natural photoshoot. Natural light, white, casual yet sensual is what I'm aiming for. I've started this project about 15 months ago and have done sessions with dozens of ppl. I have found that dancers are the best and most natural :) I can put in touch with the girls who did it so they can tell you about the experience. I am professional looking to capture magick :)

You will be asked to sign a model release, which you can modify if you want. I probably will just use the images mostly for artistic endeavors, social media and my website. Thanks for reading and be good :)
