:)

Hi Friends! I am hosting another Reiki 1 attunement this July. Read on if you are interested.

Reiki has helped me heal and expand my understanding of my body on many levels and I am honored to share this beautiful practice with more people.

Reiki is a Japanese word meaning "spiritual energy" or "universal life-force energy". Reiki is the science and art of activating, directing and applying natural, universal life-force energy. To promote energy balancing, healing, wholeness; to prevent disease and to maintain a state of balanced wellness and equilibrium.

I will be hosting the attunement in person (I am fully vaccinated) in NYC, however there is an option to participate virtually as well.

The attunement will happen in 2 sessions:

Session 1:

Fill out your [availability](#) for this session here if interested:

- You will receive printed handouts (let me know if you would like to save the trees and bring your device instead. Happy to share a PDF with you)
