[Dance Worker Digest | November 2025](#)

This month brought major developments shaping the landscape for cultural workers, from national protest actions to new labor agreements on Broadway. Federal efforts to limit state authority over AI continue to raise concern, while New York City advances a bill that could expand access to affordable housing for artists. Together, these shifts reflect the pressures and possibilities facing our field as we close out the year.

[Dance Worker Digest | October 2025](#)

This month's Digest highlights key developments affecting our field, including the federal government shutdown's impact on essential programs to a major legal win against the NEA's anti-trans policies. We also share resources for artists affected by the Red Hook fire and celebrate the addition of five new members to New York City's Cultural Institutions Group.
