A: Yes, an [application guide](#) for completing the CRF:NYS application for Individual Dance Makers is available for viewing on our [website](#).

Q: I do not have a personal bank account. Can I provide banking information for a company or another individual I trust?

A: No, banking information must reflect the identity of the applicant. Do not use the name of an entity or other individual. Please note: Dance/NYC can only deposit funds in an account belonging to the applicant.

Q: Why is the application asking for information about my demography?

A: The CRF:NYS program is intended to support those most impacted by drastic economic shifts, including individual dance makers and organizations/groups whose income is reliant primarily on in-person activities, and who often have less access to unemployment protections, savings and/or cash reserves, and multiple sources of funding.

This impact is particularly acute for African, Latina/o/x, Asian, Arab, and Native American (ALAANA), disabled, immigrant, and women-identifying artists who are historically underfunded in arts and culture (*Not Just Money: Equity Issues in Cultural Philanthropy* [heliconcollab.net/our_work/not-just-money]; *What Are the Paradigm Shifts Necessary for the Arts Sector to Nurture ~~More Sustainable~~ THRIVING Institutions of Color* [ddcf.org]).

Dance/NYC's aim in considering demographics as a selection criterion is to identify a grantee pool that represents the demographics of New York State residents and addresses misalignments highlighted by Dance/NYC research, in particular, racial homogeneity in the dance workforce, a general absence of disabled artists, and a lack of income for immigrant artists.

According to the US Census Data, the New York State population is approximately 44.7% ALAANA, 11.5% disabled, 51.4% female and 22.4% immigrant. Note that US Census disability figures include non-institutionalized populations. According to the Centers for Disease Control and Prevention (CDC), the disabled population in New York State may actually be as high as 25% when all functional disability types (mobility, cognition, independent living, hearing, vision and self-care disabilities) are included. The New York State population's median age is 39.0 and median income is \$71,117.

Sources: U.S. Census, 2020 Decennial Census, 2019 American Community Survey, 2016-2016 NYS [Behavioral Risk Factor Surveillance System Telephone Survey](#) Estimates

By providing demographic information, you will help Dance/NYC advance economic justice in the dance field by continuing to fill gaps in the availability of resources for dance makers who have limited access to financial resources, specifically, private philanthropic support and public

funding through government agencies; however, these questions are voluntary and provide an option for applicants to decline to state.

Q: What happens to my personal information if I do not receive funding?

A: The information you share will be kept confidential to the full extent of the law. Deidentified data may be published to our website and may be used for future research, for reporting purposes on the impact of this grant program, and/or other Dance/NYC research. Data will be presented only in summary form and your name will not be used in any report. Please note that while Dance/NYC will keep your information confidential, there are some data security risks inherent in providing information via the internet.

Your personally identifiable information is viewed only by the Dance/NYC Operations Manager and Dance/NYC Grantmaking Manager for the purpose of processing grant awards and will be deleted following the grant period. The narrative information you provide in your application is viewed only by the selection of review panelists, who follow strict confidentiality regulations in application review, and will be retained for Dance/NYC's historical records.
